Dear Mr. Kantaraj Urs,

As you know I am deeply interested in the ethnology of South India.

One of the subjects I wish to take up for closer study in the immediate future is the topographical distribution of Castes and Tribes in Peninsular India. The Districtwar statements published in the Census Reports are hardly sufficiently detailed for an accurate judgment on this important question. I understand, however, that in preparing the Districtwar figures, the figures are first tabulated Talukwar and Talukwar statements are prepared in manuscript.

Would it be possible for you to provide me with copies of these Talukwar statements or rather of a statement for each District, showing the number of each community in each Taluk? I do not require separate figures for male and female. The totals, males plus female, would suffice.

If it is not asking too much I should also like similar statements for each District showing the number in each taluk speaking each of the vernaculars.

I understand that these statements are prepared in the regular course of census operations and do not require any special preparation. The scientific value of such information is considerabl as important inferences may be drawn from continuity or discontinuity of distribution and it would be a pity for this information to be lost to anthropological science. I should be grateful if my name could be included in the distribution list for the Census Report for 1921, a privilege which was granted me in the case of the Census of 1911.

Statistics relating to the Districtwar and Talukwar distribution of castes and tribes etc., in the Mysore State

SIR,

With reference to your letter No.M.3067/Census dated the 17th instant on the subject of certain Districtwar and Talukwar Statistics by castes and tribes as required by Mr. F. J. Richards, I have the honour to state that at the Census of 1911, a printed volume of Talukwar Tables (Part IV) was issued. Most of the information asked for by Mr. Richards is contained in this volume, the information not available being the number of each caste speaking each of the vernaculars.

2. It is intended to issue a similar volume of Talukwar Tables during the present Census (i.e., current year) and a copy of this may be supplied to Mr. Richards.

3. In any case, it is not possible to supply the information correlating each caste with its mother-tongue, as in no Imperial Table----(Table IX correlates caste with literacy and not with mother-tongue), is such information given and as the Talukwar Tables do -

Dear Mr.Richards,

I write to acknowledge the receipt of your letter of December 1921 in the matter of furnishing you with information Talukwar of Castes and Tribes and of languages spoken. The Census Superintendent has been written to in the matter. Your request for being included in the distribution list for the Census Report of 1921 is also noted. I congratulate you on the continued interest you are taking in the Ethnology of South India.

Yours sincerely,

(Sd) M.Kantaraj Urs.

Sir,

Dear Mr. Richards,

I am directed to In continuation of my d.o letter No. 273 dated the 26th January 1922 on the subject of certain Distrctwar and Talukwar statistics by castes and tribes and of language spoken, I ~~write~~ to state that it is intended to issue during the present Census a printed volume similar to the Talukwar Tables (Part IV) issued at the Census of 1911. With the exception of the number of each caste speaking each of the Vernaculars, most of the information asked for by you will be contained in this volume. It is not possible to supply the information connecting each caste with its mother tongue as in no

Imperial Table (Table IX correlates caste with litera... and not with mother tongue) is such information given and as the Talukwar Tables do not go beyond the Imperial Tables in this respect.

The Census Supdt has been requested to send you a copy of the Talukwar Tables on publication.

Your name will also be included in the distribution list for the Census Report of 1921.

Yours Sincerely
